## Electric scissor lift pallet truck "Storit HLS/EHLS"

"A scissor lift pallet truck is an aid for moving and lifting pallets to the height of the work surface, so that the employee does not have to bend over the goods on the base by placing or taking from the base. Often the scissor fork trolley is also used for working flat and at production lines. The scissor fork trolley is stable and safe because the brake is applied automatically at the moment of lifting."

"The HLS model has a manual lift, the EHLS model has an electric lift and The EHLS NP model also comes with a remote control option as an accessory raise and lower the cart from a distance."

	Lifting capacity	Lifting height	Product code	Price
HLS1500N	1500 kg	800 mm	A0098	<b>610 €</b>
EHLS1500N	1500 kg	800 mm	T0342	<b>1490 €</b>
